

PERRY TOWNSHIP

284 Reno Road, Portersville, PA 16051

Phone: 724-368-8230

Fax: 724-368-0111

NEW ADDRESS INFORMATION

Those building permits that will involve the construction of a new home that will have a new address will need to contact the township office for paperwork to submit to the Lawrence County Department of Public Safety to have an address assigned to that site. **This must be done prior to receiving the permits to begin construction. You can access the form through their website.**

Every property with a structure is required to have an address even if it is a garage, barn, etc. This will make emergencies, deliveries, and directions, etc. easier for location of you, your property and or structure(s).

The Perry Township Supervisors will provide one address number sign with the building permit for a new construction. **The address sign is required by Ordinance** and the address information and location of the home/construction must be provided to the township office before issuance of the address sign. The cost for a sign is \$10.00 and can be purchased at the township office. The requirements are that they be white reflective background with three-inch black letters. Posting information can be obtained at the township office.

NEW LANE INFORMATION

In the event that a lane will be created by any construction or subdivision, the Board of Supervisors and the Lawrence County Department of Public Safety must approve the lane name. After approval by both, the Perry Township Supervisors will provide one lane name sign and one stop sign for that lane on a one-time basis. Should the sign(s) be removed, etc. it will be the responsibility of the resident's of the lane to replace the sign(s). **The lane name sign and stop sign are both required and must be maintained at all times.**

ALL PRIVATE LANES/DRIVES MUST BE CALLED A "LANE." Road, street and avenue address's are reserved for public roads maintained by the township.

ALL PRIVATE LANES/DRIVES ARE TO BE MAINTAINED BY THE RESIDENT(S) AND/OR PROPERTY OWNERS.
